Robert G. Hall, DDS (703) 437-8811 Reston (703) 858-0000 Ashburn	Michael T. Singer, DDS Bethesda, MD (301) 493-9500

There may be other qualified dentists not included on this list. Before starting dental appliance treatment, most patients prefer to find out how much their out-of-pocket payments will be. First, call a dentist about treatment, and ask:

1. Which treatment codes – or CPT codes, or HCPCS codes - the dentist uses.
2. What is the total cost of treatment?
3. Does the dentist participate with your insurance company for this treatment?

Then call your insurance company and ask:

1. Will the insurance company approve the treatment for you?
2. How much will the insurance company pay your dentist for this treatment?
3. How much will you have to pay yourself for this treatment?
